RESUME EXPANDED
JOHN A. ARMSTEAD

US EPA Region III, Philadelphia, PA

Served as the Director responsible for analyzing environmental data for the regional program offices. In this capacity, I directed the interpretation and provision of scientific information based on data to support program and policy decisions, and prepared information which is suitable for dissemination to the public. OED interpreted raw data from research programs and monitoring activities to identify implications on public health, environmental protection and restoration, and strategic planning goals.

October 1999 - January 2001

Deputy Director, Environmental Services Division
US EPA Region III, Philadelphia, PA

Served as Deputy Director responsible for the management and administration of the Division and was principally responsible for providing technical and scientific support to the Region=s operating program offices. This Division has responsibility for laboratory and field services, the National Environmental Program Act and wetland programs, ambient monitoring, oceanographic investigations and biological monitoring.

March 1998 - October 1999

Acting Director, Waste & Chemicals Management Division
US EPA Region III, Philadelphia, PA

Served as Director with responsibility for providing program and policy direction to the RCRA waste programs, and the chemical management programs under TSCA, CAA, EPCRA, and FIFRA. Inherently, these responsibilities include the determination of fiscal and personnel resources, controlling office expenditures, and coordinating administrative and cross-cutting program guidance. Resource requirements and allocations are determined based on program and regional priorities and needs.
